Name _____ Date _____

Similarities & Differences Between Czech & Slovak

Directions: Write what is similar and different between Czech and Slovak in the appropriate ovals. The overlapping ovals share similarities.

Name_____ Date_____

Compare/Contrast Famous People

Directions: Write an essay that describes what (native famous person) did that was noteworthy. Then compare and contrast that person with someone else in history who made a difference in the world. What were the differences and similarities between them? How would the world be different today if this person (along with their inventions/discoveries/contributions) had never lived. Tell why you think this person was a genius or not. Were they incredibly gifted, talented, or intelligent. Compare their contributions to society. Compared to curing cancer, what rating would you give them?

Historical figures that could be used include Mahatma Gandhi, Nelson Mandela, Joan of Arc, Martin Luther King, Thomas Becket, Joseph Smith, Nathan Hale, Socrates, and several others.

Birthday Party

- ☐ Compare your birthday experiences
- ☐ Fill in the following chart as you interview a classmate
- ☐ Then write a paragraph in which you compare and contrast your two birthdays
- ☐ Then research & write a paragraph comparing your birthday traditions with the target culture

Partenaire A _____

Décrivez l'image

Directions: Décrivez l'image dessous à votre partenaire. Ne montrez pas l'image à votre partenaire! Votre partenaire va dessiner ce que vous décrivez. Votre partenaire peut demander des questions (MAIS EN FRANÇAIS!) Après le dessin, regardez l'image pour comparez l'image avec l'original. Est-ce qu'il y a des différences? Marquez-les ci-dessous.

PICTURE THAT! (3)

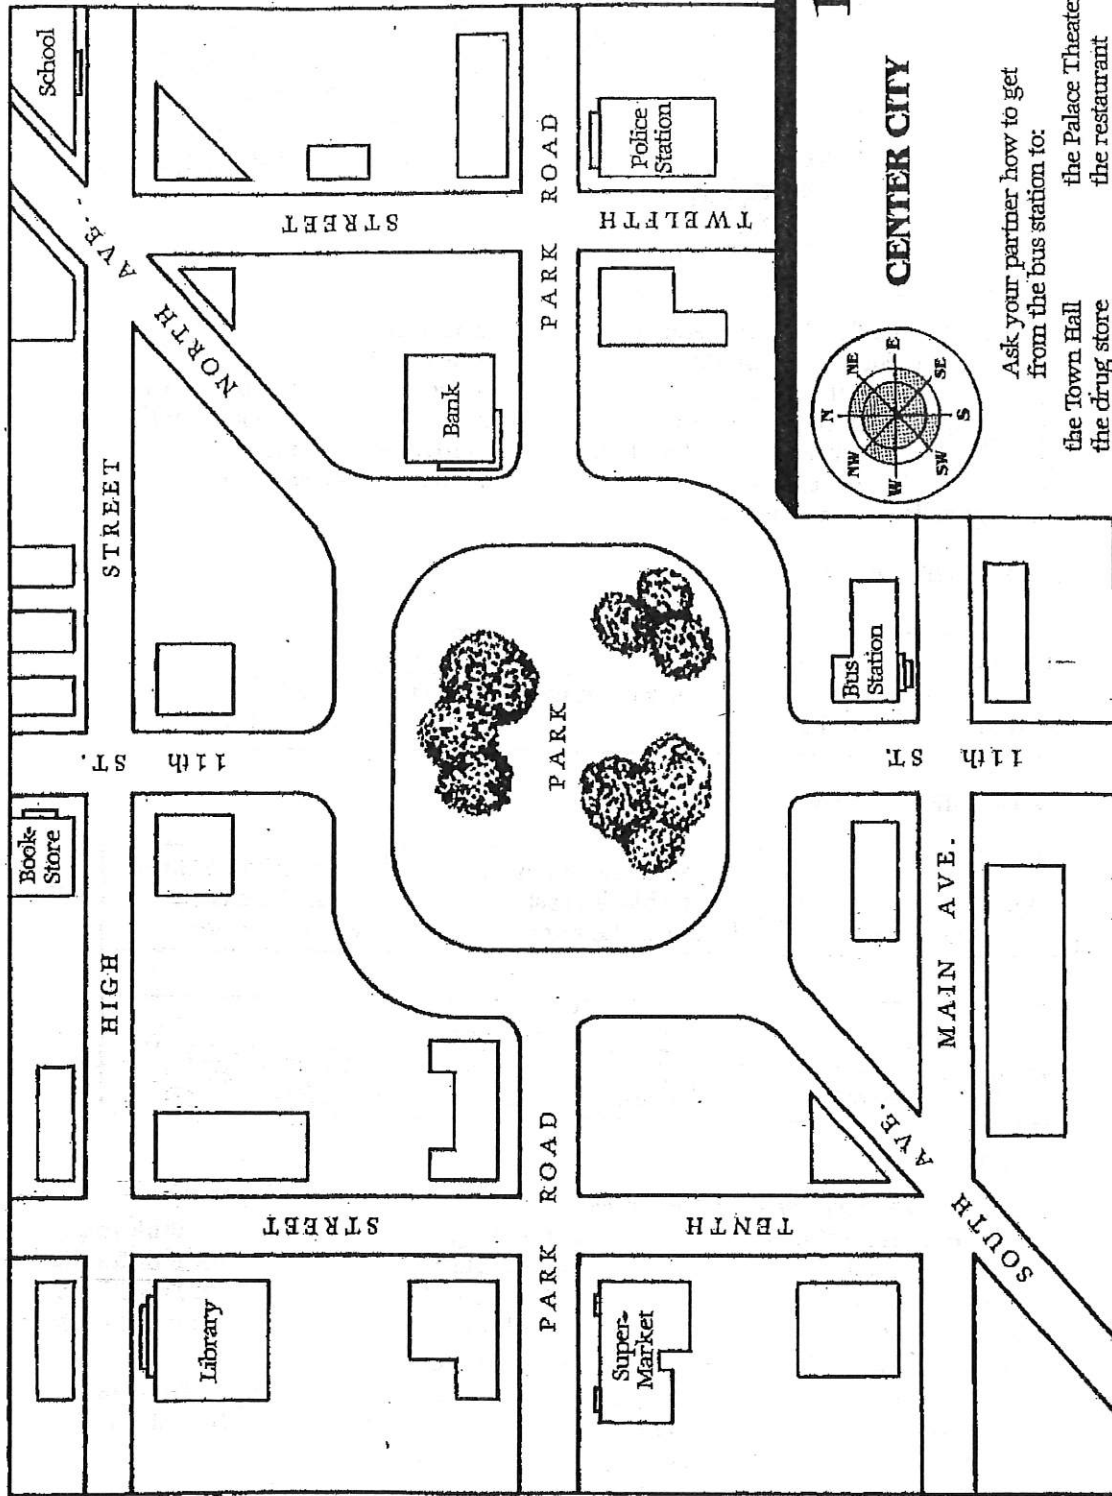

You will describe this drawing to your partner. *Do not show the drawing to your partner.* Just describe it. Your partner will try to draw a copy of the picture from your description of it, so be as clear and complete as you can.

If your directions do not seem clear, your partner may ask you questions. Answer them clearly and completely. Try to help your partner to make a drawing as much as possible like the one you are describing.

When your partner has drawn the picture, show him or her the one on this page. Compare the two of them and discuss any differences with your partner.

MAP ACTIVITY-1

1A

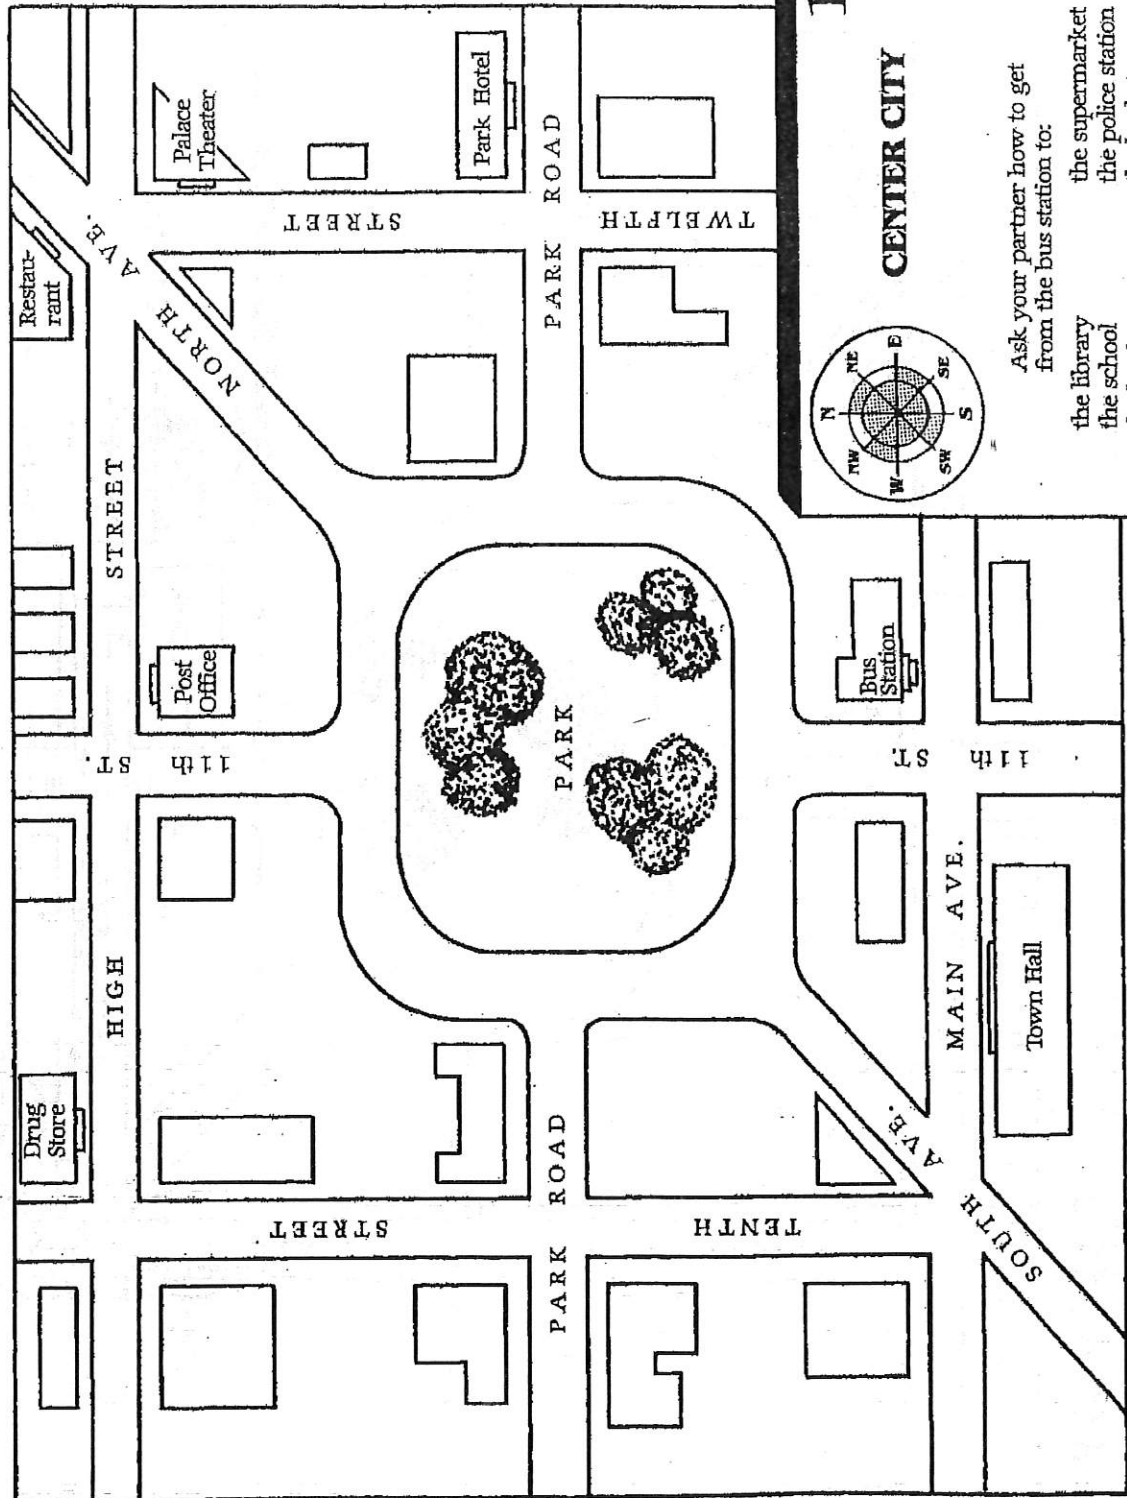

CENTER CITY

Ask your partner how to get from the bus station to:

- the Town Hall
- the drug store
- the post office
- the Palace Theater
- the restaurant
- the Park Hotel

To Pass or Not to Pass

After you have discussed this case, write your decision and the reasons for it.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

*This activity will help you learn more
about the people in your class.*

Sign on the Dotted Line

Directions: Move around the room and talk with your classmates. Try to find someone who fits each of the following descriptions. (Make up your own descriptions for items 11–15.) When you find a person who fits one of the descriptions, ask that person to sign his or her name on the dotted line next to that description.

Find someone who . . .

has the same initials as yours.

was born in August.

is one of six children.

can speak four languages.

has visited New York City.

doesn't like cats.

can play the guitar.

is older than you.

can recite a poem in English.

likes Madonna.

Classroom Debate Rules

1-Introduce the topic

All debates start with a topic, or resolution. Often, this resolution is a proposed course of action that one team will argue for and another will argue against. Choose a topic to that is relevant to your country or culture and which your students can relate and perhaps one with practical application.

2-Assign the Affirmative and the Negative

There are two sides to any debate. Naturally, one will argue for and another against the resolution. With foreign language students, it is best to group your students into teams to research and argue the issue rather than expecting one student to do all the work. This way one student does not have all the pressure to perform, and the other members of the group can help with comprehension and strategy. Give them an assignment to come up with 3-5 arguments supporting their position. Each student receives a grade based on their 3-5 arguments and presenting them in class.

3-Give Time for Research

Your students will need time to research the issue. Not only that, they will also need additional instruction on the specific vocabulary that may be involved. Make sure all of your students understand any specialized vocabulary so the efficacy of their arguments does not depend on simple comprehension. Remind each group that all of them are expected to participate in the research and strategy of the debate. Then, during the preparation time in anticipation of the rebuttal, your students should discuss with their teams the points the opposition made and decide how to refute them.

4-Keep Track of Time

If you are unfamiliar with formal debate, the speakers follow a set order. The following is the most basic of debate structure.

First, the affirmative group receives two minutes to present their case to the audience.

The negative group then receives two minutes to present their case.

After both sides have a chance to speak, both teams receive two minutes to prepare a rebuttal and summary. The order of speech is reversed now and the negative side presents their rebuttal and summary for the first two minutes. This process can be repeated several times during the class. The last to speak is the affirmative team who then presents their rebuttal and summary for two minutes. The debate is now concluded.

5-Make a Judgment

Usually in debate, the winner is the one who has presented the strongest case. For foreign language classes, the overall purpose of speaking is more important than the specific outcome of the debate. Still, your students will probably want to know who won. To determine the winner, a TA or a "neutral" student could act as the moderator and/or judge and award points for each argument.

Balloons Popped-Partial Visual

If the balloons popped, the sound wouldn't be able to carry since everything would be too far away from the correct floor. A closed window would also prevent the sound from carrying, since most buildings tend to be well insulated. Since the whole operation depends on a steady flow of electricity, a break in the middle of the wire would also cause problems. Of course, the fellow could shout, but the human voices are not loud enough to carry that far. An additional problem is that a string could break on the instrument. Then there could be no accompaniment to the message. It is clear that the best situation would involve less distance. Then there would be fewer potential problems. With face to face contact, the least number of things could go wrong.

(Nishibayashi 2006, pp.51-52 from Bransford & Johnson, 1972)

Balloons Popped-Contextual Visual

The Flashlight

This is a story written by Sempé and Goscinny about a small boy who bought a flashlight with some money his father had given him, played with it continuously, to the general annoyance of his parents, used it until the batteries ran down, and finally exchanged it with a friend for a police whistle. The story is appropriate in style and content for adults readers.
